Our team is committed to deliver **solution** to our customer on time and within budget using latest software technologies.

If it is for the quality or accessibility of customer service and technical support, flexible payment methods, the quality of service or network uptime; we stand apart in the crowd the crowd at all levels.

We are constantly in the process of updating our software skills adopting new **technologies** that can perform better functions. We believe in integrating our skills with our clients' inputs to achieve desirable results. We have developed our own performance measurement systems that virtually support our clients into the routine of software developing and over- viewing the performance of our skilled manpower.

We are ready with all sorts of solutions **Come to us**. We deliver any application that is web based, Intranet supported or stand alone and further our solutions are designed to adapt your business rather than your business adapting the software. Our solutions are 100% fruitful and empower you to take control of your business online and in real time!

We have taken it as our primary vision to dedicate ourselves to the cause of creating quality software and provide world class services to our customers. We want to reach out to the organizations worldwide and provide them excellent **software development** services. Using our vast industry experience, we will guide them through their complex processes & systems and render the best **software solutions** to automate them. We are always in pursuit of improving our skills & processes and keep ourselves abreast of latest cutting edge **software technologies** to help our clients convert their various business processes into profitable business models.

Customize Software Solution

E-Square has off-the-shelf offers of software but it may not exactly suit the client's requirement. Hence, to ensure that, customers derive full advantage of the E-Square software solution, we work closely with them to customize the solution to the customer's specific needs and working situation.

Software customization includes:

- Tailoring the functionality, workflow, and processes of the software to fit into the specific needs of client business, industry, regulation & legislation
- Matching configuration of our software to client's environment
- Integration with 3rd party applications involved in the solution
- Developing additional product functionality or capabilities
- Customizing visual aspects of the solution (colors, logos, images, layouts, screen behavior etc...)

MULTIMEDIA PRESENTATION

"GET PRODUCTIVE STAY CREATIVE"

The key to success in today's market is not just providing premier quality services but also to market the qualities in the best possible manner. It is here that multimedia presentations add the cutting edge to your image, making your company appear suave and techno savvy in addition to a quality service provider. Corporate multimedia presentations ensure that your premier quality also gets premier attention. The colorful animations, pictures with audio and visual effects fascinate the audience and trigger attention to a greater degree.

Effective promotional presentations bring life to your products and services, and enable you to give prospects an in-depth look at your company at their convenience.

We provide professional corporate presentation services using the today's technology and tomorrow's ideas to help you make the impressive first and lasting impression that's crucial to the success of your business.

We're serving businesses & corporate across India and the world and equip them with the best possible means of delivering their message through multimedia presentation designing. Our multimedia presentation add the winning edge to their image, making their companies appear techno savvy in addition to achieving new levels of integrated communication.

Whatever you require, either a hi-end flash multimedia presentation designing or a simple slide show, we offer:

- ◆ High End Deliverables for your multimedia presentation designing and corporate presentation
- ◆ Rapid Turnaround time in preparing the corporate presentation using effective multimedia presentation designing
- ◆ Persistent Reliability of your corporate presentation and multimedia presentation designing

Pure Animations: Storyboarding

Pure animations play an important role when presenting your business views in a story form. Our storyboard team consists of script writer, artists and animators to give the project a visual representation. Storyboard building goes through the following four stages of development.

- ◆ Visualizing the scene at a broad level
- ◆ Rough sketching of visual elements and character design
- ◆ Setting color, speech and interactive attributes that are a part of the storyboard.

ANIMATION MOVIE

E-Square Business Solutions offers creative, technical & production capabilities to design and produce computer animation & visual effects for films, Industrial training, commercials, forensic & medical applications, education & interactive story boarding with a strong focus on digital 2D/3D/Video content. We strive to create memorable characters & edutainment that appeal to audience of all ages.

QUALITY ASSURANCE

E-Square maintains consistent high quality level at every aspect of business. Our QA program refers to the systematic monitoring and evaluation of the various aspects of a project, service, or facility to ensure the standards of quality are being met.

Two key principles of our QA program are: "fit for purpose" (the product should be suitable for the intended purpose) and "right first time" (mistakes should be eliminated). Quality Assurance both at product and processes levels is given equal importance at E-Square.

Our dedicated team of skilled software testers along with QA Lab provides a full range of quality assurance (QA) services. QA is engaged in the software development process at each stage to assure the quality of a software product and processes involved.

We shall work towards creating a culture of continual improvement in all the functions of our Company. To achieve this, we shall

- **Set objectives at functional levels and monitor them regularly.**
- **Involve our people in this process through CPE (Continuous Professional Education), Motivation and training.**
- **Develop & help our clients to meet their quality requirements.**
- **Set quality plan to deliver highest level of customer satisfaction.**

Our Quality Policy is to deliver excellence in all our services to enable our esteemed customers to excel in their own business.

The Management is committed to provide adequate resources towards fulfillment of the objectives of the Organization.
